

Project Walkthrough Example Brief

DC126711-HUI GUANHAO(Team08)

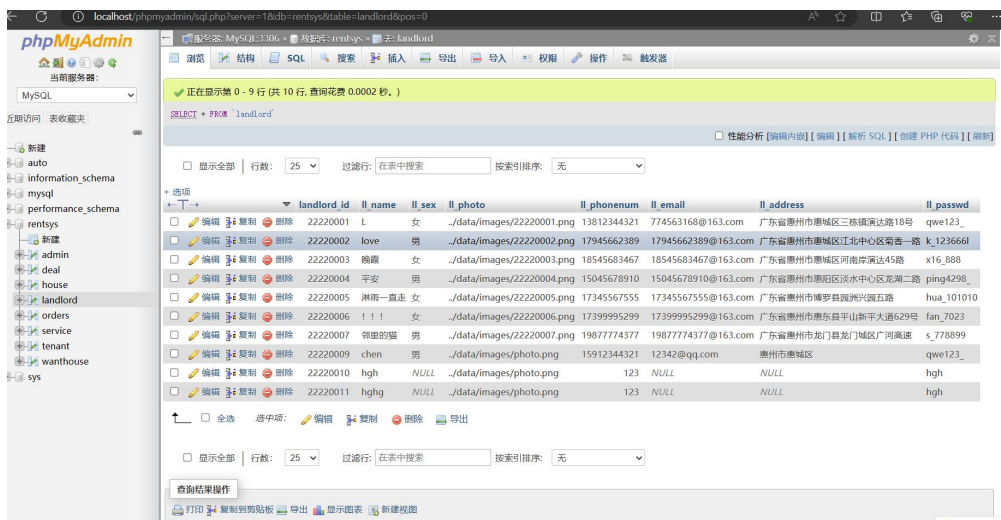

1. First we log in to the landlord/tenant account and then go to the home page

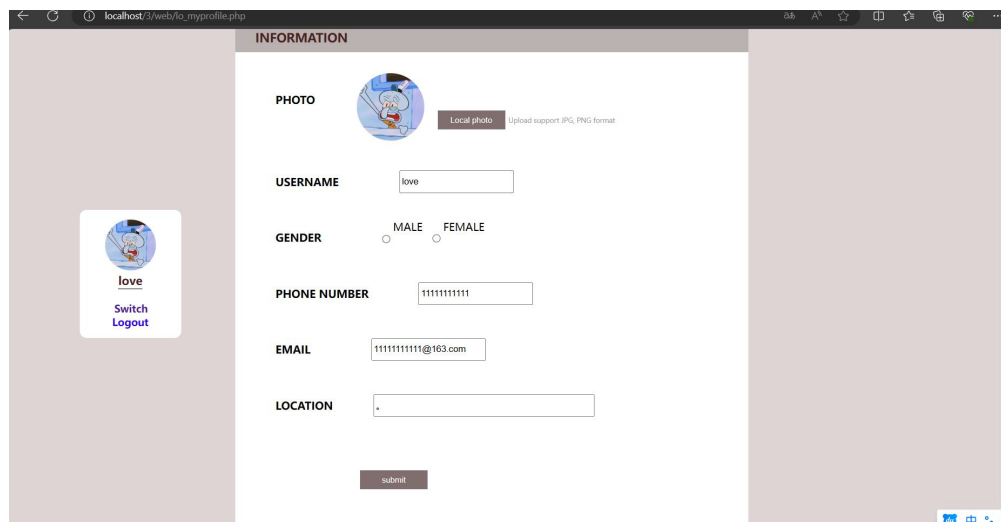

2. Then click on the avatar icon in the top right corner to get to the profile screen. We can see that there are many profile tabs that we can change.

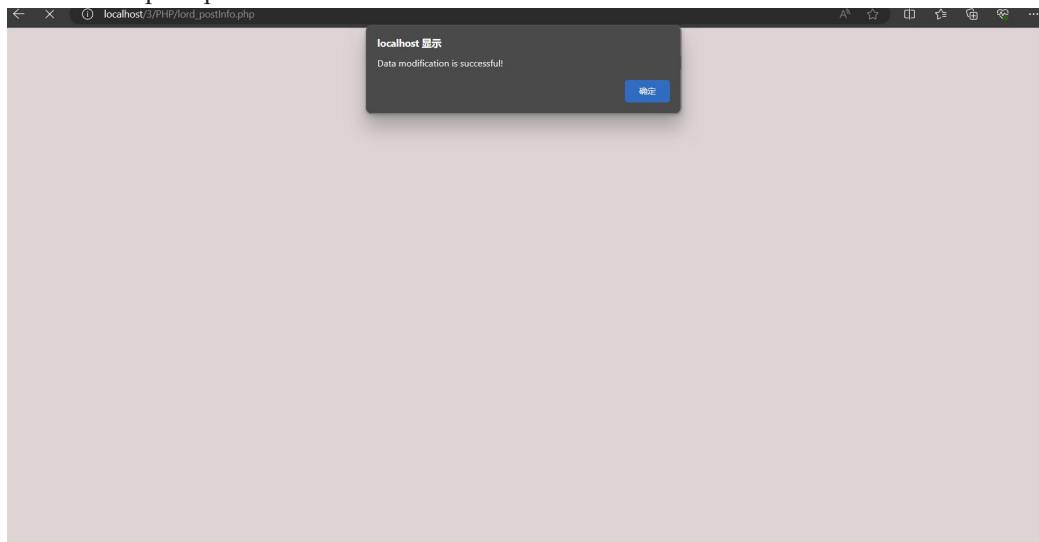

3. Here is the corresponding database view, we can see the user profile data before the change.

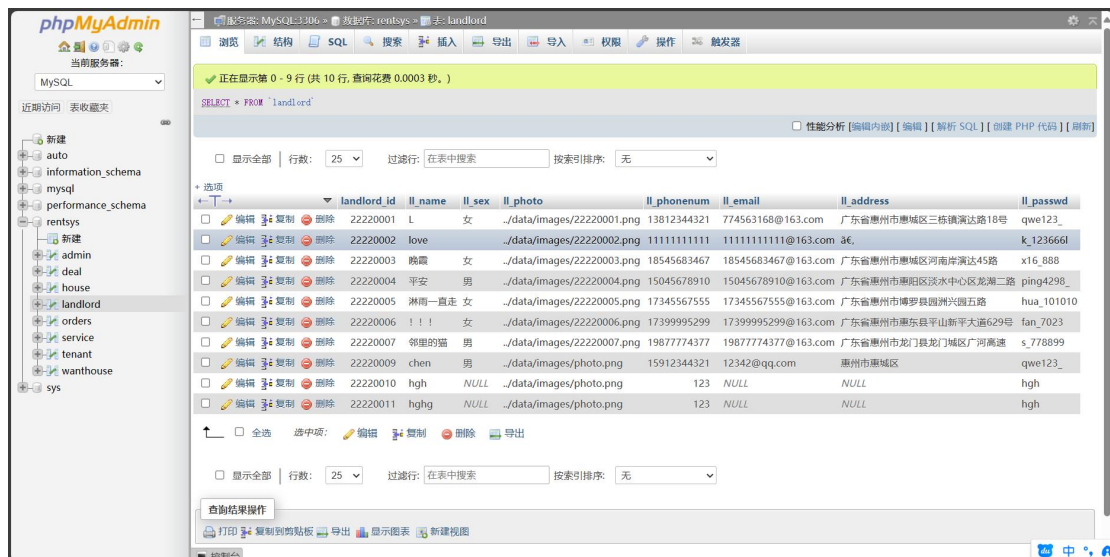

4. We modify the user's information

5. You will be prompted after a successful submission

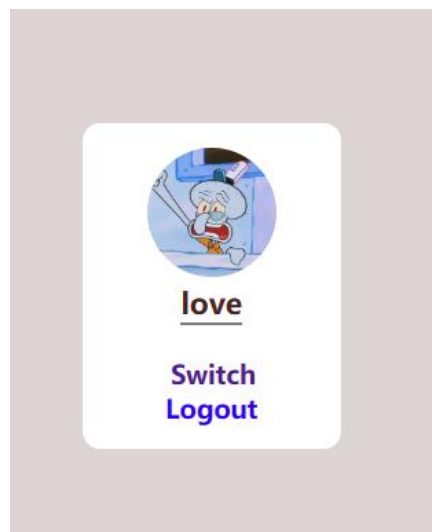

6. You can now see the changes in the database for that user

7. Back on the profile screen, we can switch accounts and log out by using the hover box on the left of the account

8. After selecting Switch, the screen will be redirected to the login screen

9. After selecting the logout button, the account will automatically log out and return to the home page
